Name: _____   Class: _____   Due Date: _____

Because of ...

Think about a problem that you would like to solve (e.g. too much littering, going to too many academies, not having enough science classes, etc.). Take this problem and write a cause and effect story of the way you would fix it. Think about the **immediate** and **future effects** of this change. Would another problem occur in the future from it? If so, what would the solution be for that new problem?
